Development Process

2009
Established in 2009
Developing tooling &injection
and selling plastic

2013
Exhibition for OEM
Build a team for production

2015
Focus on OEM
Private toolings up to 50

2017
Officially initiated the ODM

Invested own lab in factory
for QC team

More than 300 workers in
production and 40 staffs in office

2017
Over 100 million
turnover

Created some models
for ODM buyers

2020
2020 open another 20+ new private
keyboard and mouse
Total private tooling reach to 100+

2021
Officially initiated IDM
Expanding the ODM and start IDM

2024
More than 100 private models
Expanding the IDM, successful created
4 designs for VIP buyers

OEM

OEM :
After years of development and technical innovation, KEYCEO has become a professional custom manufacturer with leading technology in this field.

Factory Service

ODM

5 engineers aiding our customers product development for better cost efficiencies performance, and speed to market.
KEYCEO provides best-class ODM service. You only need to provide your design drawings to explain your core requirements. Our engineering team will meet all the details until the product is trial-produced, mass-produced, and marketed. We will escort all engineering technology and quality requirements.

IDM

IDM Means , ideal, design , manufacturer. It's a special service. for KEYCEO VIP Buyer .
KEYCEO IDM Project supports exclusive market.
KEYCEO provides one-stop IDM service. We will provide a complete ID design, as well as product development concepts, functions, target audiences and product selling points. We will complete engineering prototype verification, mold manufacturing, injection molding, PCBA production, reliability testing, and safety testing through a 3D printer. service.

How we are different

1

Deep industry expertise
Over 20 years industry experience help us more easy working on each Process to help our buyer save the development and production time.

2

Product design and engineering expertise
Around 20 designers and engineers aiding our customers product development for better cost efficiencies performance, and speed to market.

3

Not request tooling cost from buyer
In KEYCEO, buyers don't need to bear the tooling cost for our IDM Project, we will pay mold expenses and buyer will only need to invest in marketing and sales of the product.

4

Perfect quality control system
We have our own complete life test equipment and ROHS Test equipment , and work with CNAS qualification lab to make sure the certificate comply with international standards.

Why working with us

Flexible Production & Mass Customization & Economies of scale Guaranteed super service in the following latitudes.

1 Superior Efficiency

2 Superior Quality

3 Superior Innovation

4 Excellent Customer Responsiveness

Competitive unit price **5**

Flexible payment terms **6**

Win-Win Result **7**

Adhere to long termism **8**

After everything I've said, you must can't wait to start working with us to figure it out, right ?

Making computer accessories starts with KEYCEO !

做电脑配件 始于KEYCEO,但不止于KEYCEO!
